ACTAR

1. BIOGRAPHY

Eric Naugle is an ACTAR-accredited Traffic Accident Reconstructionist with over two decades of experience in accident reconstruction. Throughout his career, Eric has been qualified on numerous occasions to testify as an expert witness.

Eric has completed specialized training in a variety of key areas critical to accident reconstruction, such as Advanced Commercial Vehicle Accident Investigation, Pedestrian/Bicycle Crash Investigation, Human Factors in Traffic Accident Reconstruction, Advanced Analysis of Drivers Responses, Motorcycle Crash Investigation, Rollover Crash Analysis, and many other areas.

Eric Naugle has taught as an adjunct instructor at the Savannah Tech Police Academy in Pooler, Georgia, covering subjects such as Traffic Accident Investigation and Reporting, Motor Vehicle Law, and the Setup and Operation of the Total Station Mapping System. In addition, he has provided extensive departmental training for the Glynn County Police Department. His training topics there included Basic Crash Investigation, Crime Scene and Crash Investigation using the Total Station Mapping System, and advanced instruction in Computer-Aided Diagramming using AutoCad and CrashZone, as well as the Georgia Electronic Accident Reporting System (GEARS). Additionally, Eric is a member of several prestigious organizations, including the National Association of Professional Accident Reconstruction Specialists, the International Network of Collision Reconstructionists, and the Professional Society of Forensic Mapping Specialists.
